HIGHLANDS FITNESS CENTER QUESTIONNAIRE

This questionnaire is designed to help you help yourself. Many health benefits are associated with regular exercise, and the completion of this questionnaire is a sensible first step to take if you are planning to increase the amount of physical activity in your life.

For most people physical activity should not pose any problem or hazard. This questionnaire has been designed to identify the small number of adults for whom physical activity might be inappropriate or those who should have medical advice concerning the type of activity most suitable for them.

Common sense is your best guide in answering these few questions. Please read them carefully and check the YES or NO line opposite the question of it applies to you.

- _____ 8. Are you pregnant?

If you answered YES to one or more questions:

If you have recently not done so, consult with your personal physician by telephone or in person BEFORE increasing your physical activity. Tell your physician what questions you answered YES to on this questionnaire.

After medical evaluation, seek advice from your physician as to your suitability for:

- ☐ Unrestricted physical activity starting off easily and progressing gradually.
- ☐ Restricted or supervised activity to meet your specific needs, at least on an initial basis.

If you answered NO to all questions:

If you answered the questionnaire accurately, you have reasonable assurance of your present suitability for graduated exercise program – a gradual increase in proper exercise promotes good fitness development, while minimizing or eliminating discomfort.
